Questions about the Course

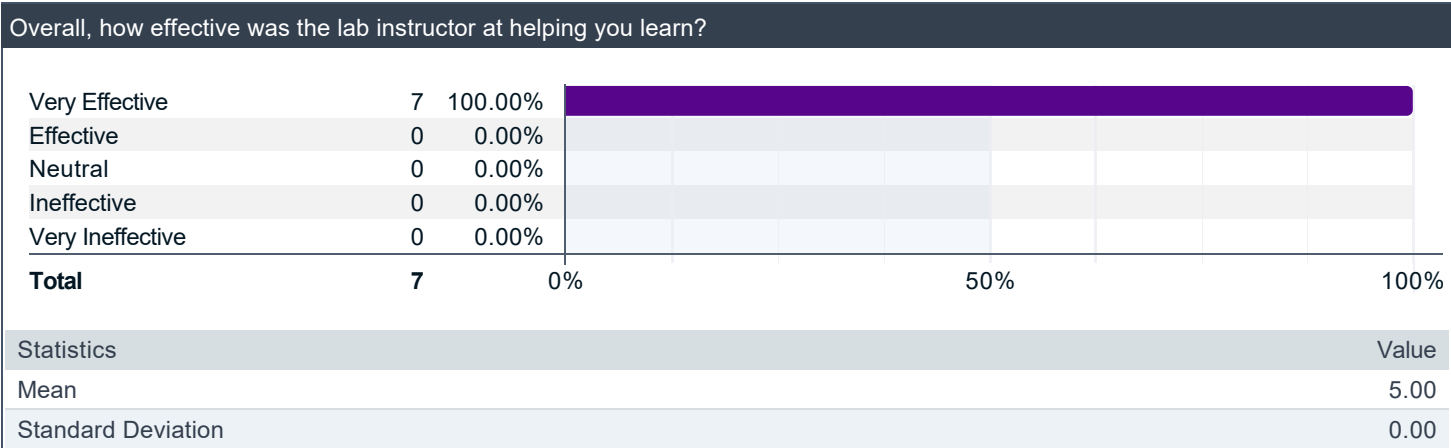

Describe the one best thing about the lab section that was effective in helping you learn.

Comments
My lab instructor would review problems every lab. Additionally, Marcus was extremely helpful in general regarding the course.
My TA made the concepts much more digestible than my lecture professor, and wouldn't move on from explaining topics until everyone was clear across them.
The TA (^▽^)
having community with other students and getting connected with a TA
The lab TA (Marcus Hoskins)

If you could suggest one thing to improve the lab, what would it be?

Comments
Update and reorganize each lab manual. They are outdated, too wordy, and confusing.
N/A
Please restructure the lab manuals. It's difficult to navigate when compared to manuals from other labs.
Shorter post labs

Marcus is the best TA I could have ever asked for

$$\star \cdot \overset{\circ}{\circ} \cdot \star \cdot \cdot \cdot \star \cdot \cdot \cdot \left( \star \overset{\circ}{\circ} \nabla \overset{\circ}{\circ} \star \right) \cdot \star \cdot \cdot \cdot \star \cdot \overset{\circ}{\circ} \cdot \star$$

I can't believe he has the patience to deal with us. He really helped make lab less stressful and confusing. Very communicative.

Marcus was fabulous, he was very kind and open, approachable. Very organized and effective in his teaching strategies.

Marcus single-handedly carried me through the entirety of general physics II. The only reason why I've been doing well in this course is because of his office hours and explanations of the homework during lab/recitation. So thank you.
